

Product description

The mobile beltpack is a critical communication hub designed to facilitate reliable audio connections between ground crews and aircraft.

Its robust design ensures clear and uninterrupted communication in demanding environments. Ideal for aviation applications, it enhances operational efficiency by allowing seamless coordination during critical tasks, ensuring that teams remain connected at all times.

Main features

Product description

Weight	250g
Size	124x68x32mm

Certification

Certification	IP 65 (optionnel IP67)
----------------------	------------------------

Network technology

Network	DECT
Range	300 m
Type of connection	Full Duplex
Encryption	AES 128 bits
User capacity	8
Frequency	1791 to 1928 Mhz

Battery

Autonomy	16h
Charge time	80% in 2H30

Temperature range from -30° up to 60°

Advanced Ergonomics

Compatible to any wired headset of the competition

Large graphic display with backlight

Removable battery pack

Full Duplex communication (users can emit and receive at the same time)

Powerful DSP-based noise reduction

Vocal announcement for use hand free

Delivered with a bumper for shock protection

Additional options :

- Bluetooth
- Long range
- Remote recognition
